+

Dear Matt:

Yesterday we drafted our proposal for the "scientific" guidelines for GEP. I will send this draft to you until Thursday.

Do you plan a meeting on the drafted 2 documents ((1) "Political" document = EU-Resolution, (2) "Scientific" document = Sound-Science Coalition) bringing all parties involved together at the same table (Chuck Lister, Gene Pack, "us") ? I think an update of our strategy and a discussion of the documents would be very helpful at this point. Perhaps we can arrange such a meeting on July 29, 1994, in London. I propose to invite also Dr. von Holt, INBIFO, to this meeting, because he significantly contributed to our draft.

Please let me know your opinion.

Best regards,

Roger Walk

P.S.: Please note that Thursday, July 21, 1994 is a public holiday in Belgium, but fax messages to CRC will reach me on that day.
